DETAILED ACTION

Response to Amendment

Examiner acknowledges the reply filed 12/07/2006, in which claims 2-36 were amended. Currently claims 1-36 are pending in this application with claims 2-6, 9, 11, 13-15, 17, 21-22 and 24-25 pending for examination with claims 1, 37, 8, 10-12, 16, 18-20, 23 and 26-36 withdrawn from previous election restriction. Examiner acknowledges receipt of the priority document present in the file, however a first line amendment to the specific is still require for a proper priority claim as addressed in the prior office action and below (emphasis added).

Response to Arguments

Applicant's arguments, see remarks, filed 12/07/2006, with respect to claim objections of claims 1-36 with respect to improper element number format have been fully considered and are persuasive. The objection of these claims has been withdrawn.

Applicant's arguments, see remarks, filed 12/07/2006, with respect to rejection under Maginot et al. (6,190,371) have been fully considered and are persuasive. The rejection of these claims has been withdrawn, however a new rejection of claim 2 is presented below.

Applicant's arguments filed 12/07/2006 have been fully considered but they are not persuasive, Applicant's asserts that the amendment of the claims to further define the blood lumen does not change the scope of the claims. Examiner disagrees with this statement, the amendment constitutes a scope changing amendment because it defines the lumen of blood extraction with a specific spatial relationship to the other

lumens present in the claims, however if Applicant addresses the rejection of claim 2 below in an after final amendment Examiner will not interpret that change as a new issue at that time.

Priority

A reference to the prior application must be ***inserted as the first sentence(s) of the specification of this application*** or in an application data sheet (37 CFR 1.76), if applicant intends to rely on the filing date of the prior application under 35 U.S.C. 119(e), 120, 121, or 365(c). If the reference to the prior application was previously submitted within the time period set forth in 37 CFR 1.78(a), but not in the first sentence(s) of the specification or an application data sheet (ADS) as required by 37 CFR 1.78(a) (e.g., if the reference was submitted in an oath or declaration or the application transmittal letter), and the information concerning the benefit claim was recognized by the Office as shown by its inclusion on the first filing receipt, the petition under 37 CFR 1.78(a) and the surcharge under 37 CFR 1.17(t) are not required. Applicant is still required to submit the reference in compliance with 37 CFR 1.78(a) by filing an amendment to the first sentence(s) of the specification or an ADS. See MPEP § 201.11.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 2 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant

Art Unit: 3763

regards as the invention. Regarding claim 2, it is unclear to which what is joined to what in the wherein clause of claim 2, starting with "...in said second closed position is joined..." Examiner suggests the addition that the *tip* is joined to the outer tube, as is understood by Examiner.

Allowable Subject Matter

Claims 4-6, 9, 11, 13-15, 17, 21-22 and 24-25 are allowed.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
